

Roadmap to Early College High School Opening

The following timeline provides districts and IHE partners a progression of activities to develop plans to meet the Blueprint design elements, Blueprint products and the provisional OBM targets for their inaugural 9th grade student cohort (see [Blueprint](#) for an overview of design elements, products, and OBMs, and see [Infographic](#) for an overview of the phase-in process). Districts and IHE partners are expected to complete each of the activities with support from their TEA selected technical assistance provider.

Through the 18-month planning process, district and IHE partners will:

- Establish strategies to meet the Blueprint design elements, products, and provisional OBM targets
- Develop a strong partnership between the district and college credit provider
- Build a MOU that meets the needs of both the campus/district and the IHE
- Determine long-term funding
- Build a leadership team for student success
- Establish a course of study crosswalk which enables a student to combine high school courses and college-level courses to earn either an associate's degree or at least 60 semester credit hours toward a bachelor's degree
- Develop high-quality college and career pathways that ensure students attain postsecondary credentials with value in the labor market and launch rewarding careers
